Story 2 - Blackbeard and the Captive Mermaid

The notorious pirate Blackbeard was feared by all who dared cross his path. One stormy night, his ship, the Dark Fury, was caught in a violent tempest. As the waves crashed around them, the crew spotted a mysterious figure in the water—a mermaid, struggling against the current.

Ignoring the crew's warnings, Blackbeard ordered them to capture her, believing she would bring them good fortune. The mermaid, named Seraphina, was dragged aboard, her eyes filled with fear and sorrow. Blackbeard demanded she lead them to a hidden treasure, threatening her life if she refused.

Desperate and helpless, Seraphina led them into a treacherous part of the sea, hoping to escape. However, the plan backfired. The Dark Fury was wrecked on jagged rocks, and many of the crew perished. In the chaos, Seraphina managed to slip back into the water, but she couldn't shake the horror of her captivity and the death she had witnessed. Blackbeard, though surviving the wreck, was left with nothing but the haunting memories of his greed and cruelty.
